

The K-12 Blueprint Policy and Leadership Toolkit

toolkits

The Policy and Leadership Toolkit includes case studies, checklists, step-by-steps, program frameworks, and presentations to help with your school or district's policy and leadership endeavours.

Exciting changes are taking place in education. And all of these changes require sound policy and strong leadership that focuses school technology-use on instruction and equity while protecting students, enlisting stakeholder support, and educating the entire school community about responsible and ethical Internet use.

This toolkit is designed to help school leaders evaluate current policies and approaches while considering what

changes might be necessary in order to keep pace in a rapidly changing world.

Discover the critical resources, tools and information necessary when planning for policies in your school or district. www.k12blueprint.com/policy.
