

# TAP INTO HIGH SCHOOL INTERESTS

If your high schooler...	Consider:
Loves chemistry	Learning the basics of chemistry through cooking in the kitchen.
Is a Doodler	Sketchnoting your favorite movies or old classics.
Loves to eat	Hosting a virtual family meal where everyone preps and eats together.
Is anxious	Trying a 30-day meditation challenge.
Loves to win	Setting up family word or exercise challenges.
Likes YouTube videos	Introducing them to Ted-Ed.
Can't get enough of science	Exploring the World Science Festival Video Library.
Loves taking pictures	Honing their skills with creative photo editing apps.
Loves to organize	Eliciting their help to rearrange a room in the house.
Loves watching music videos	Choreographing and videotaping a family music video.
Loves making music	Starting a collaboration with friends online.
Loves illustrations	Self-publishing a book on StoryBird using illustrations from real artists.
Is a reader	Building a tiny free library of their favorite books for the neighborhood.
Loves technology	Getting a Microsoft, Adobe, or Google student certification.
Likes to code	Learning computational software such as WolframCloud or Kaggle.
